'Preparing to Adapt III'

Like in 2012 and 2014, also in Biarritz students will present their projects in a special workshop of YPCC chaired by Albert Salman and Robbert Misdorp. Preparing innovative/resilient/no-regret adaptive options should involve young professionals at an early stage through familiarizing ICZM concept and tools. Join us at the YPCC workshop and get acquainted with fresh and sound experiences from the Bask and Wadden Sea coasts!
